Keep Drone Aircraft Facility Out of Wisconsin!

We, the undersigned citizens of Wisconsin, oppose the construction of an $8 million drone training facility at Camp Williams's Volk Field. The use of drones in warfare violates international law and causes immense human suffering. Drones kill many innocent civilians and thus increase the number of people who want to retaliate against the U.S. for the loss of their loved ones. Wisconsin's share of this federal facility will be over $400,000 and in a time of budget shortfalls is not a good use of our tax dollars.
